## FIELD PHOTOGRAPHY TIP NO. 14

### COVER THE DAMAGE

In hunting, something dies. That's the justifiable outcome of a fair pursuit. Taking an animal doesn't always have a clean ending, but that doesn't mean our field photos have to be bloody. Sometimes it is impossible to do a field clean up before photos are taken, but the answer can be as simple as using the available vegetation to your advantage.

It is not known if it was necessary to use this technique to capture this well-composed photo or not, but that's the point. We don't know.

Linda J. McBride took this pronghorn, scoring 80-2/8 points, while hunting in Hudspeth County, Texas, in 2012.

# MULE DEER

This mule deer was killed by a mountain lion that was in turn found by Ralph Steinhoff, in 1942. Steinhoff was mountain lion hunting with some friends when they found the deer about a mile away from where they took the cat. It has a greatest spread of 46-2/8 inches.

## COMING SOON! A MULE DEER RETROSPECTIVE

Sportsmen with an eye for the good ol' days of big game hunting in North America will be intrigued in B&C's third installment of its visually stunning Retrospective Series. This latest book focuses on the iconic mule deer of the West with hundreds of vintage photographs, detailed chapters by Guy Eastman, Ryan Hatfield, and Jim Heffelfinger, along with a special section on women hunters who've harvested outstanding mule deer.

With the vast amount of imagery, entertaining correspondence, and historical trophy data, **A Mule Deer Retrospective** will not disappoint even the most discerning hunter!

Is This a Record-breaking Deer Spread

The yardstick is too short to measure the spread of this mule-deer rack from Arizona. It's 47 3/8 inches, no less!

A MULE-DEER BUCK with a 47 3/8-in. spread was killed not long ago in the Kaibab National Forest, Arizona. This figure is the greatest spread ever recorded in the North American record book of big-game trophies. The newcomer—with 11 points on one antler and 9 on the other—probably rates well toward the top of the list, which is graded according to length of outside curve. However, the expert hunter that bagged this deer will never see his name in the records for he himself was shot dead within a mile of where he lay down his skin.

hunter. Butler, one of the greatest mountain-lion trackers living today, has more than 500 of the felines to his credit. And many marines and ex-marines will remember Capt. Ralph Steinhoff as range officer at Camp Mathews, Calif., and later at Parris Island, S. C., where he helped train thousands of recruits.
