## RECENTLY ACCEPTED TROPHIES

Shelly D. Sayer was shooting her .270 Weatherby when she took this desert sheep, scoring 179-5/8 points. She was hunting in Riverside County, California, in 2013.

## FIELD PHOTOGRAPHY TIP

Len H. Goldman harvested this pronghorn, scoring 91-6/8 points, in 2013 while hunting in Yavapai County, Arizona.

Not only does mass factor in the scoring of antlered and horned game, and can push an otherwise well-framed head into the record book, but mass is also a sign of age, good habitat and both are a result of good conservation. Good mass is also appealing to the eye. Taking photos with trees in the background typically drowns out a trophy. In this instance however, it looks like this pronghorn has tree trunks on his head.
