## BOONE AND CROCKETT CLUB'S 22ND NORTH AMERICAN BIG GAME AWARDS RECOGNIZES THREE NEW WORLD'S RECORDS

BY JACK RENEAU  
DIRECTOR, BIG GAME RECORDS

The Boone and Crockett Club's 22nd North American Big Game Awards were made at the 22nd Awards Luncheon held on Saturday, June 10, 1995, at The Adolphus Hotel, Dallas, Texas. The quantity and quality of trophies received and displayed at the Dallas Museum of Natural History are the largest and finest ever received at a Final Awards Judging since the Club began such recognition in 1947. Included among the 100 outstanding trophies singled out for highly coveted B&C Medals and display were new World's Records for typical whitetail deer, Alaska-Yukon moose, and Central Canada barren ground caribou.

The public display of invited trophies was at the Dallas Museum of Natural History in Dallas, Texas, and it was open to the public during May 8 to June 10, 1995, offering a very unique opportunity to see the most outstanding North American big-game animals ever taken. Milo Hanson's typical whitetail buck, taken near Biggar, Saskatchewan, in 1993, was one of the highlights of the exhibit. Scoring a whopping 213-5/8 points, its final score exceeded the previous World's Record taken by James Jordan in Burnett County, Wisconsin, in 1914, by 7-4/8 points.

The new World's Record Alaska-Yukon moose and Central Canada barren ground

caribou, both taken in 1994, were also present. John Crouse's new World's Record Alaska-Yukon moose, scoring an impressive 261-5/8 points was taken near Fortymile River, Alaska, and Don Hotter's Central Canada barren ground caribou, scoring 433-4/8 points, was taken near Humpy Lake, Northwest Territories.

The complete list of Awards follows. Note that awards are generally in

direct relationship to the final score, but not always. The Awards ("places") and Honorable Mention are intended to recognize hunter-taken trophies collected within five years of the closing date of the entry period, with a Certificate of Merit available for trophies not meeting these conditions. The New World's

Records are shown below, and all scores are final. The scores shown will determine where these trophies will be listed in Boone and Crockett Club's 22nd Big Game Awards, available in fall 1995, and in the next edition (11th) of the all-time records book (Records of North American Big Game), expected after 1998.

To approximate the rank, compare the score with the appropriate category in the 10th Edition of, Records of North American Big Game (1993) available from many book and sporting goods stores or can be ordered directly from the Boone and Crockett Club, 250 Station Drive, Missoula, MT 59801. A complete listing of Boone and Crockett publications as well as an order form can be found in the center of this issue.
