## For the Sportsmen and Hunter on your Holiday Gift List

### BOONE AND CROCKETT CLUB'S 25TH BIG GAME AWARDS, 2001-2003

This 700-page volume is the most up-to-date big game records book available — containing a complete listing of the 4,220 trophies accepted in the 25th Awards Entry Period. Each listing includes the final score, selected measurements, location and date of kill, hunter and owner, as well as the rank in the 25th Awards Entry Period.

What sets this publication apart from other books are the tales of the hunts for the top 117 North American big game animals entered in the Club's 25th Awards Program, including eight new World's Records in seven categories. Read about the hunts for some of the highest ranking trophies ever taken by today's hunters — such as Jason S. Ballard's new World's Record Roosevelt's elk scoring 404-6/8 points and Jerry D. Bryant's non-typical whitetail deer scoring 304-3/8 points, which is the second largest hunter-taken whitetail ever.

Stories told by the hunters themselves provide exciting reading and invaluable information about areas currently producing trophy-quality big game animals.

In this book you will also find hundreds of photos — portraits of the top 117 trophies, hunters in the field, and a special 32-page color section of the best field photos from the 25th Awards Entry Period, not to mention 17 score charts including all the measurements for the top trophies.
