FIELD PHOTOGRAPHY TIP NO. 11

TAKE A STAND

For big critters like elk and moose, spool a few shots standing with your trophy. Our natural reaction is to get down on the ground with them for all the photos, but with big

head gear species you might be surprised how well the photos will come out with you standing. This was very much an old school approach to field photography when cameras first arrived on the scene – now seeing a revival of sorts.

Michael P. Campos is pictured standing with his typical American elk scoring 371-2/8 points. He harvested this bull in Nye County, Nevada, in 2011.
