Nothing Escapes These Eyes.

The New Steiner Peregrine. More detail, and more color even in the darkest shadows.

With Steiner's exclusive Broad-Band coating technology, you'll be able to see clearly, right through the final minutes of twilight and into the darkest shadows. The Peregrine features HD optics, for industry-leading brightness and highest definition. Long eye relief, and soft, comfortable contoured eye cups that seal out ambient light so you can see even more acutely in darkness.

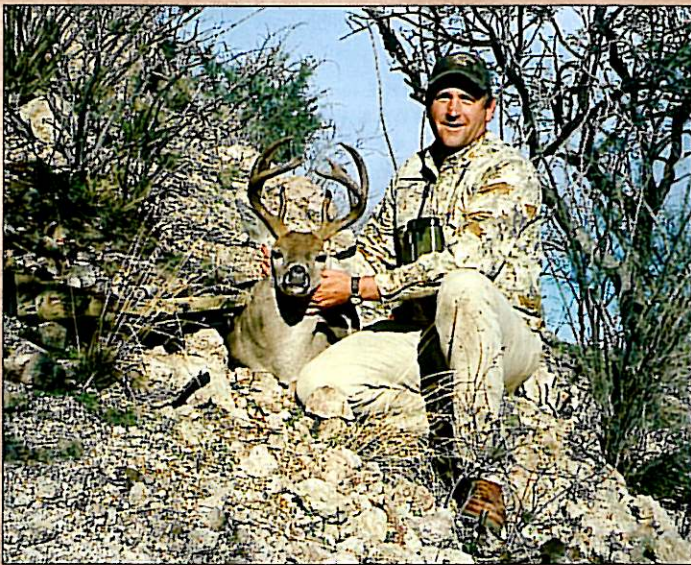

They're US Mil.Spec tough and submersion tested for survivability in the harshest conditions. See for yourself; find the Peregrine at most better dealers of fine optics.

Available in 8x42 and 10x42 models.
