NEW SPORTSMAN ASSOCIATE

William H. Crawford – Frederick, OK

Since it's founding in 1887, the Boone and Crockett Club's history has exemplified leadership...that of developing, enhancing, and promoting America's wildlife conservation movement. The Boone and Crockett Club was the first private organization to provide leadership in identifying and resolving conservation issues of national scope. The Club's influence has proven far in excess of any ordinary organization of its size. Over the past 117 years, Club Members have helped to set aside more land, created more conservation organizations, and initiated more legislation and programs for the benefit of wildlife than any other institution.

Kyle Van Why is a wildlife biologist with USDA-Wildlife Services in Mississippi. His Masters research at Louisiana State University was supported in part by funding from William I. Spencer Conservation Grants Program of the Boone and Crockett Club.

In order to carry on this legacy of conservation leadership the Club needs the support of its members through philanthropic gifts. Annual contributions help support specific programs in education and research and are especially helpful as these programs are expanded and made available on a broader scale. As a Boone and Crockett Associate, you will now have an opportunity to renew your Associates subscription at two new levels beyond the basic one-year renewal rate of \$25. **We have recently added the Sportsman renewal level at \$100 and the Trailblazer renewal level of \$250.** The portion of your fees above the basic \$25 will go to support the Club's continued efforts to insure that wildlife and wildlife habitat are given the consideration they deserve, so everyone will have the opportunity to hunt, a place to hunt, and healthy populations of game once they get there.

Our mission has, and always will be, conservation, preservation of our hunting heritage, and promotion of fair chase hunting ethics. The common thread in this mission is hunting. Your passion for wildlife and hunting is originally what brought you to join Boone and Crockett and this is why we are asking you to renew your membership and consider an additional contribution to support our programs. By selecting the Sportsman or Trailblazer levels of membership you will receive a tax benefit for the amounts above the basic \$25 fee as the Boone and Crockett Club is a 501 (c)(3) organization.

As you consider making a gift to Boone and Crockett a question which you may have is, "How will my contribution to Boone and Crockett be used?" Your annual gifts currently help us fund key elements of the Boone and Crockett Club's programs such as the William I. Spencer Conservation Grants Program, selected aspects of the K-12 Conservation Education program, as well as the Big Game Records Program's work in promoting ethical hunting.

When you receive your associate renewal notice, please consider renewing at whatever level you can afford. Whatever you choose to give, multiplied by your fellow Associates, adds up to the resources needed to move the Club's visions for wildlife and wildlife conservation into the future. Whatever you choose to give will be sincerely appreciated.
