### NOTICE

There are many state, provincial and private organizations publishing local records books that use the Boone and Crockett Club's copyrighted scoring system with permission of the Club. Since there is no single reference source for these books, and because there are many hunters who collect them, we will review them as time and space permit.

However, the Boone and Crockett Club cannot vouch for the accuracy of the data contained in these books. Some of the books featured in this section may contain data and statistics for trophies not listed in any Boone and Crockett Club records book. Further, some of these books may include trophies that were not scored by certified Boone and Crockett Club measurers.

If there is any question about the status of a trophy listed in any of these books, the Boone and Crockett Club's records book/archives are the final reference source to settle any and all discrepancies.
