

RECENTLY ACCEPTED BIG GAME TROPHIES

The following pages list the most recent big game trophies accepted into the Boone and Crockett Club's 28th Big Game Awards Program, 2010-2012, which includes entries received between January 1, 2010, and December 31, 2012. All of the field photos in this section are from entries that are listed in this issue and are shown in **bold green text**.

This listing represents only those trophies accepted since the Spring 2012 issue of Fair Chase was published.

ABOVE Justin J. Langlois was bowhunting when he took this black bear, scoring 20-6/16 points. He was hunting in Sandilands, Manitoba, during the 2011 season.

BELOW Phillip A. Celador was hunting during the 2011 season in San Luis Obispo County, California, when he took this tule elk, scoring 291-2/8 points.

FIELD PHOTOGRAPHY TIP NO. 10

LENGTH COUNTS

If you're a student of the B&C Scoring System, you know length matters. What you may not know is tine length in mule deer represents 44% of a buck's final score, so it matters a lot.

If you've taken a buck that has the length, show it off. The next time you're running through various field photo poses, take a profile photo or two. The straight on, "How wide is he?" photos don't always give a buck's rack justice when it comes to length of points. While you might make a screen saver out of a traditional front shot, having photos of your trophy from other angles will come in handy when its time to reflect back on a great deer you have taken.

Jasen Louma shows his trophy typical mule deer's length with a profile photo. His buck, scoring 197-7/8 points, was taken in 2011 while hunting near Great Sand Hills, Saskatchewan.
