

NEW GUNS AND GEAR

1. WEATHERBY MARK V® ARROYO™ RC

New for 2015, Weatherby introduces the Mark V Arroyo™ RC (Range Certified).

The Arroyo maintains the treasured heritage of traditional Mark V rifles, while offering hunters and shooters a contemporary appeal and competitive price. Integrating a hand-laminated, raised comb, Monte Carlo composite stock, the newly featured Mark V rifle incorporates the highly-desired KUIU® Vias camouflage pattern. Other features include a CNC-machined 6061 T-6 aluminum bedding plate and #3 contour free-floated stainless steel fluted barrel with a recessed target crown. Barrel lengths come in 24 and 26-inch lengths, depending on caliber, and presents a two-tone finish in Cerakote® “Desert Tan” with Flat Dark Earth flutes.

The Mark V Arroyo offers a SUB-MOA guarantee (three-shot group of .99” or less at 100 yards when using Weatherby factory or premium ammunition), and fully adjustable factory-tuned trigger.

2. SITKA KELVIN LITE

The Kelvin Lite series has set the standard in lightweight insulation by providing warmth while remaining lightweight, and packable. New for 2015 is the Kelvin Ultralight Down Jacket, a pure insulating, mid-layer essential for all around comfort. Single-minded in its construction, the compact quilt of rip stop polyester contains 90 grams of 750 fill-power PrimaLoft® Down Blend Gold insulation. The short rise cut and elimination of all unnecessary features make it clutch for every minimalist backpack hunter’s arsenal. The Kelvin Down Ultra Lite Jacket is available in GORE™ OPTIFADE™ Concealment Open Country (medium to 3XL sizes) and Amber (medium to 2XL sizes) and has an MSRP of \$289.

3. LEICA ER 5 SERIES RIFLESCOPES

Leica’s new ER 5 Series Riflescopes feature Leica’s legendary German engineering, superior optical performance and unmatched mechanical precision in an American-made product that meets the unique needs and demands of the North American hunter.

Six new models, from the close-quarters 1-5x24 to the long-range 5-25x56, are each packed with sophisticated features.

The ER 5 Series features extended 5:1 zoom ratios, ideal for any shooting application, while the higher magnifications cater to longer distances common to the North American hunter.

Features at a glance:

- highly versatile 5:1 magnification ratio
- 4” of extended eye-relief
- precise, highly tactile ¼ moa turret adjustments
- finger re-settable turret calibrations
- balanced turret and main tube design for mounting flexibility
- rugged one-piece main tube of Aerospace grade aluminum
- waterproof and fog-proof go-anywhere performance
- low-profile turrets perfect for saddle scabbards
- generous windage and elevation adjustment ranges
- Lifetime Limited Warranty - plus 3 Year Leica Passport Protection
