## 35 YEARS LATER

At the urging of his sons, B&C Associate, Glenn J. Ashbrook, contacted official measurer, John A. Bogucki of North Liberty, Indiana, to have a deer he had taken in 1970 measured. He had never thought it had a chance

of making the B&C records book, but he finally agreed to find out for sure.

Ashbrook's buck did indeed make the Club's records book with a final score of 184-7/8 points. He had taken the typical mule deer while hunting in Coconino County, Arizona, more than 35 years ago.

"If not for the boys, it would still be in the basement gathering dust!"

The inset picture is Ashbrook's youngest son Dan. He tried to tell him not to shoot unless it was a trophy, but buck fever got him!

## ARIZONA BULL

B&C Lifetime Associate, Richard Corbett took this fine non-typical American elk while hunting in Arizona's Navajo County in 2004. The bull scores 404-5/8 points and was entered in the Club's 26th Awards Program. Corbett became a B&C Lifetime Associate (number 327) in the spring of 2005.

## NEW OFFICIAL MEASURER

This is my first entry of hopefully many more to come! I sure appreciate the Club's decision to allow me to officially measure for them. It's a duty and responsibility I don't take lightly! It is with great gratitude that I was able to attend the workshop in Auburn, Alabama. As for my love of hunting and being able to give something back to the sport I love, becoming an official measurer for the B&C Club has further opened the door for bigger and better opportunities!

After returning to Wisconsin from the workshop and reading parts of the B&C records books and *Fair Chase* magazine, I can surely see the role the Club has taken in the ongoing pursuit of better conservation practices! After hearing that the Club is not just a records-keeping organization, through correspondence, it's finally sinking in and coming full circle to me! That's why I'm not only proud to be an official measurer, I'm also equally proud to be an Associate member of this great organization.

*Yours Truly in Hunting and Conservation,  
John M. Ramsey  
Baraboo, Wisconsin*

## PROUD FATHER

Cody J. Merk, right, took this typical whitetail deer, which scores 160-6/8 points, in Rock County, Wisconsin, during the 2004 season. Cody is pictured here with his father.
