BOONE AND CROCKETT CLUB'S 29TH BIG GAME AWARDS BOOK, 2013-2015

Every three years, Boone and Crockett Club's publications and records programs work hand-in-hand to release a new Big Game Awards book. This particular edition is our 12th book since the series began in 1983 with the publication of *Boone and Crockett Club's 18th Big Game Awards*.

That first book included less than 1,000 trophy entries accepted between 1980 and 1982, along with just 68 trophy stories. This current edition includes more than four times as many trophy big-game entries—4,221—and nearly 100 trophy stories. We've come a long way in the last three decades!

Only 2,500 copies of this hardcover edition available. Once they are sold out, no more will be printed.

Of all of B&C's records books, this particular series stands out, thanks to the inclusion of the stories behind the top trophies that were recognized at the 29th Big Game Awards Trophy Exhibit and Banquet. After you've had a chance to relive the adventures these sportsmen had in the field, take some time to look through and study the trophy data the Club's Big Game Records Program has gathered from 2013 through 2015. These listings are a testament to the successes achieved by our state and provincial game departments in managing North American wildlife. Plus, this scientific data offers insights into planning your next hunting trip. It's valuable information for both sportsmen and game managers alike.

THIS NEW EDITION INCLUDES:

- An in-depth review of the top-scoring trophies displayed at the 29th Awards Program.
- Data for over 4,200 big game entries in 37 categories that include key measurements, final B&C score, gross B&C score, locality and year taken, entry period rank, and name(s) of the hunter and owner.
- True adventure hunting stories and photos about 98 award-winning, big-game trophies.
- B&C score charts with measurements from the top trophies.
- Special full-color section featuring 60 of the best field photos.

- Hardcover with dust jacket
- Includes all B&C trophy entries accepted between 2013 and 2015
- Over 500 B&W photographs and 60 color photographs
- 7 x 9 inches
- 736 pages

HOW TO SCORE NORTH AMERICAN BIG GAME

B&C'S OFFICIAL MEASURERS MANUAL

Watching the last trickles of daylight slink away over a distant ridge, hoping a mature animal presents itself in time for an ethical shot. Stalking open grassland into a stiff north wind, every sense on high alert, as the cold air stings the cheeks and nose. The heart beating wildly at the sound of a pre-dawn tromp through fallen leaves, foretelling the possibility of approaching game. For those who count the days until their next trip afield, the true measure of a successful hunt will always be the vivid memories of time spent in wild places.

While the definition of a successful hunt is left to its participants, the Boone and Crockett Club scoring system remains the benchmark for identifying mature big-game animals and healthy big-game populations.

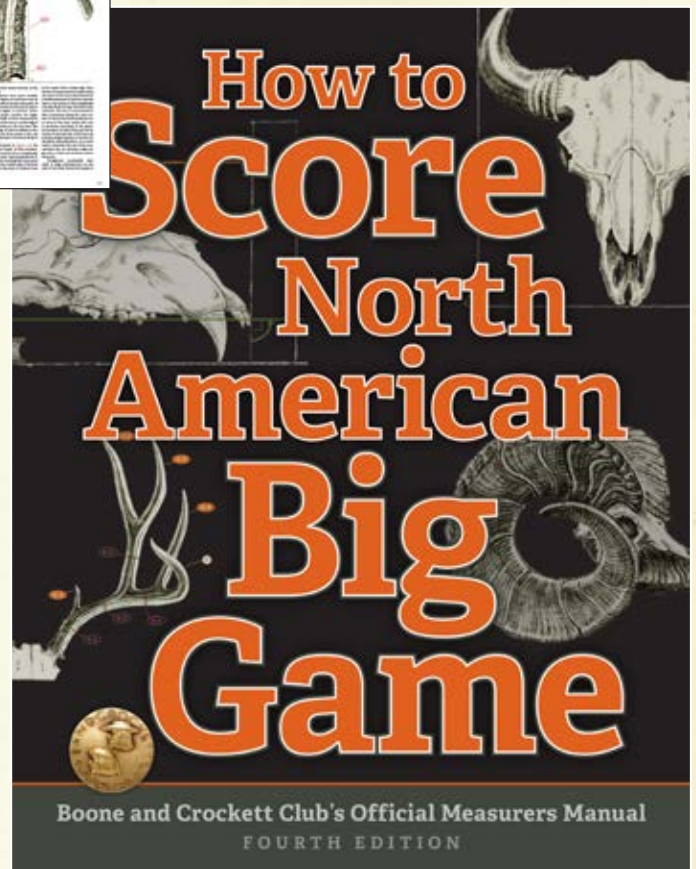

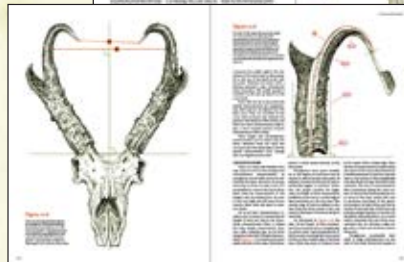

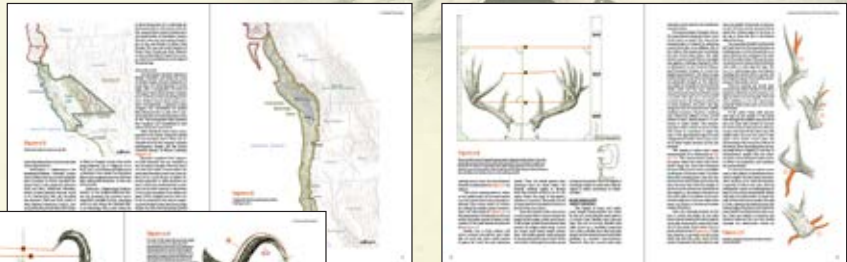

In the Club's newly revised edition of *How to Score North American Big Game*, the definitive Boone and Crockett scoring system is explained in detail using simple, straightforward language and more than 100 new color illustrations and diagrams by noted wildlife artist and B&C Official Measurer Chris Lacey. This new edition is spiral bound for durability providing easy, lay-flat reading with a pocket integrated into the back cover for safe keeping of score charts and notes.

This handy reference guide is a must-have for any sportsman's hunting camp!

A must-have addition to the library of any hunter-conservationist, the latest edition of *How to Score North American Big Game* offers the most up-to-date scoring techniques with easy-to-follow instructions for scoring all 38 categories of North American big-game animals recognized by the Boone and Crockett Club with detailed explanations of the Club's records-keeping policies and procedures. In addition the book delivers chapters on the Club's history and its records-keeping program. The new edition also includes an expanded chapter on category boundaries enhanced with detailed, full-color maps from onXmaps.

- Spiral bound, paperback
- Over 125 drawings and photographs
- 9 x 11.4 inches
- 224 pages

THE LEGENDARY HUNTS OF THEODORE ROOSEVELT

BY JOHN SEEREY-LESTER

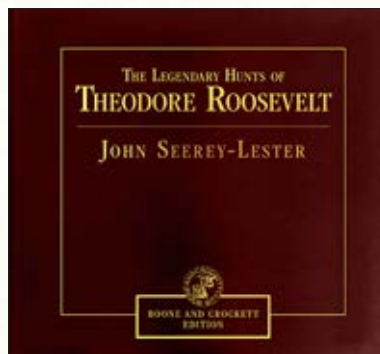

Acclaimed wildlife artist John Seerey-Lester takes you on a historic journey in words and paintings that will make you feel as though you were there, sharing the exciting adventures with the former president in the new book, *The Legendary Hunts of Theodore Roosevelt*.

This much anticipated new book features over 50 true stories devoted to Roosevelt's most spectacular hunts on three continents. Complementing Seerey-Lester's fascinating text will be some 120 of his paintings and sketches, which altogether provide a fascinating glimpse into the life of the former president and his passion for wildlife and adventure.

The book covers TR's most active years as an outdoorsman from the 1870s until his death in 1919. It begins with TR's first hunt as a 5 year old, and then tells of his brother Elliot and a thrilling story involving a massive herd of bison on the Western plains. You will share in TR's excitement and frustration as a rancher in the Badlands of the Dakotas; of hunting grizzlies in buckskin and moccasins; of several harrowing incidents that set the stage for TR's illustrious life as one of the world's foremost adventurers.

UNIQUE GIFT IDEA - Signed by the Artist!
