## TWO POTENTIAL NEW WORLD'S RECORDS HAVE BEEN RECENTLY ACCEPTED BY THE BOONE AND CROCKETT RECORDS DEPARTMENT.

As with any trophy, regardless of potential rank, the first step in the confirmation process is the trophy being scored by an Official Measurer and then reviewed by the records office. Once the score is accepted its ranking is pending until the conclusion of the Awards Program, as panel verification is required. In the case of any potential new World's Record, the Club extends an offer to the trophy owners as to whether they would like us to convene a Special Judges Panel to confirm its World's Record status. The hunter who took the potential new World's Record Roosevelt's elk in British Columbia did not wish to pursue a special panel, so it will stay pending until it is brought to a judges panel or the trophy owner changes his mind. The mountain caribou was accepted March 21, 2016. The records office has contacted the trophy owner and he is interested in having a panel convened. Tentatively this will take place in May.

This mountain caribou, scoring 460 points was taken by Gregory B. Smith near Finlayson Lake, Yukon Territory, in 2016.

LEFT: Rick Bailey harvested this Roosevelt's elk, scoring 419-6/8 points near Pitt Lake, British Columbia, in 2015.

## 30<sup>TH</sup> BIG GAME AWARDS

This Shiras' moose, scoring 172-5/8 points, was harvested by Kelly M. Tynes in Gallatin County, Montana, in 2016. She was shooting a .300 H&H.

Brian W. Sewell was hunting in Moffat County, Colorado, in 2016 when he took this pronghorn scoring 86-4/8 points.

*"I have been blessed to even be in the presence of such a magnificent animal, let alone harvest him. He deserves the very best of showings, and I would be honored for have him participate in the 30th Big Game Awards."*
