SWAROVSKI OPTIK

A FAMILY AFFAIR

Of course it is not always possible, but when it is, snapping a few photos with your family and your trophy makes for extra special memories. Our field photos lock in a place and time, and our kids grow up. "Look at how little I was back then," will ultimately replace "look at how big that buck is."

Ryan H. Woller took this non-typical whitetail deer, scoring 189-1/8 points, while hunting in Marathon County, Wisconsin, in 2012.

- A mere 11.9" and 20.5 ounces, with performance and light transmission exceeding most larger, bulkier riflescopes.
- One of the *only* 10x riflescopes on the market with **side parallax adjustment**— from 25 yards to infinity.
- Standard with Nightforce digital **Digillum™ illuminated reticle technology.**

Streamlined, low in profile, with advanced optical technology and packed with features, the 2.5-10x42 NXS™ Compact gives performance far beyond its size. Actually, beyond most riflescopes of *any* size.

Our new IHR™ (International Hunting Reticle), one of several unique reticles offered in the 2.5-10x42 NXS™ Compact.

A LOOK BACK...

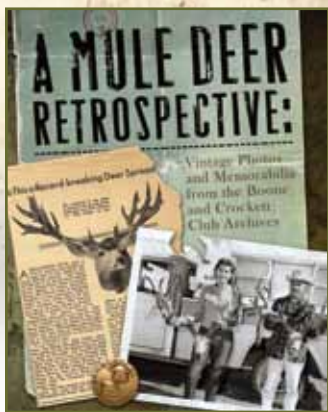

MULE DEER

William H. Geare took this mule deer in the fall of 1949, in Coconino County, Arizona. It wasn't until 2006 that he had his buck officially measured, scoring 192-3/8 points.

This trophy is one of the many unique mule deer stories featured in **A Mule Deer Retrospective**.

A MULE DEER RETROSPECTIVE
 Vintage Photos and Memorabilia from the Boone and Crockett Club Archives

Typically speaking, mule deer hunters are bit more fanatical about the game they pursue than most of their sportsmen brotherhood. With the vast amount of photographs, entertaining correspondence, and historical trophy data, **A Mule Deer Retrospective** will not disappoint even the most discerning hunter!
